## REASONS FOR ALLOWANCE

Page 2

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate or render obvious the claimed process for the conditioning of organic azo pigments, the azo pigments produced thereby or printing inks or coatings comprising the azo pigments. U.S. Patent 4,167,503 discloses liquid colorant preparations which contain an organic pigment and an ethoxylated alkyl phenol such as nonylphenoxy poly(ethyleneoxy) ethanol. The reference does not disclose that the pigments are conditioned by preparing an aqueous slurry of the pigment in the presence of the ethoxylated alkyl phenol and heating to a temperature above about 70°C. The reference provides no motivation to prepare conditioned azo pigments by the process as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fiona T. Powers whose telephone number is 571-272-0702. The examiner can normally be reached on Monday - Friday 8:00 AM to 4:30 PM.

Application/Control Number: 10/751,162
